### **2. DATE, TIME AND MODE OF MEETING**

Pursuant to an order dated 9<sup>th</sup> November 2022 passed by the Hon'ble Tribunal in Company Application viz. CA(CAA)/61(CHE)/2022, the Meeting of the Secured Creditors of the Company, will be held for the purpose of their considering and, if thought fit approving by the Secured Creditors, with or without modification(s), the said Scheme through Video Conferencing ("VC")/ Other Audio Visual Means ("OAVM") on 16<sup>th</sup> December 2022 at 2.00 p.m. (IST). as per the applicable procedure prescribed under Ministry of Corporate Affairs (MCA), MCA General Circular Nos. ### **3. RATIONALE AND BENEFITS OF THE SCHEME**

*(The capitalized terms used herein shall have the same meaning as ascribed to them in Clause 1 of Part I of the Scheme)*

The circumstances which justify and/or have necessitated the said Scheme and the benefits of the same are, *inter alia*, as follows:

- (i) SCL has built up substantial surplus reserves over the years from its retained profits. The surplus reserves are well above SCL's current and likely future business needs. Further, barring unforeseen circumstances, SCL is confident of generating

incremental cash over the next few years. Overall reserves position is expected to improve further even after considering cash requirements for SCL's capex programme and working capital requirements.

- (ii) Further, upon taking into consideration SCL's capability to generate strong cash flow and the surplus reserves being more than what is needed to fund SCL's future growth, SCL is of the view that these excess funds can be optimally utilized to reward its shareholders in such difficult and unprecedented times by way of distribution.
- (iii) At the same time, in keeping with SCL's tradition of conventional cash management and being mindful of the challenging business environment, SCL is of the view that it would be prudent to retain liquidity as well. Accordingly, SCL has proposed, *inter alia*, to distribute such funds amongst its shareholders by issuing fully paid up Non-Convertible Redeemable Preference Shares ("NCRPS") by way of bonus in terms of this Scheme. Furthermore, these bonus NCRPS will be listed on BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE"), thereby providing free transferability and liquidity to the shareholders.
- (iv) NCRPS while giving near-cash (traded, encashable) instrument in the hands of shareholders, give increased flexibility to SCL in managing its liquidity through options like trading in the market, redemptions, etc.
- (v) In view of the aforesaid factors, SCL has concluded that it can optimally utilize its surplus reserves by distributing a considerable portion of the same to the equity shareholders. In order to maintain high level of corporate governance and transparency, SCL proposes issuance of NCRPS by way of bonus under Section 230 of the Act which will be subject to necessary statutory, regulatory and corporate approvals.
- (vi) As part of the restructuring exercise, it is proposed to consolidate all the resources of the Transferor Companies with the Transferee Company. The said amalgamation will result in the following benefits:
  - (a) Streamline the promoter holding structure;
  - (b) Optimal utilisation of resources and better corporate governance; and
  - (c) Reduction of administrative responsibilities, multiplicity of records and legal and regulatory compliances.
- (vii) Given its diversified business, it has become imperative for the Demerged Company to reorient and reorganize itself in a manner that allows imparting greater focus on each of its businesses. With this repositioning, the Demerged Company is desirous of enhancing its operational efficiency.
- (viii) The Scheme proposes to reorganise, segregate and demerge the Demerged Undertaking comprising of manufacturing non-ferrous gravity and pressure die castings from Demerged Company into the Resulting Company and the Demerged Company will be left with group management services' business, trading business and manufacturing of two & three wheeler vehicles through TVS Motor Company Limited.
- (ix) The proposed demerger pursuant to this Scheme is expected, *inter alia*, to result in following benefits:
  - (a) segregation and unbundling of the businesses of the Demerged Company into the Resulting Company, which will enable enhanced focus on the Demerged Company and Resulting Company for exploiting opportunities of each of the said companies;
  - (b) unlocking of value for the shareholders of the Demerged Company, attracting investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;
  - (c) logistics alignment leading to economies of scale for the Resulting Company and creation of sectoral efficiencies and benefitting stakeholders as well as optimization of operation and capital expenditure; and
  - (d) enhancing competitive strength, achieving cost optimisation, ensuring benefits through focused management of the financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies of the Resulting Company and the Demerged Company thereby significantly contributing to future growth and maximizing shareholders' value.

**B. BACKGROUND OF THE COMPANIES**

- (i) **Sundaram-Clayton Limited ("Transferee Company" or "Demerged Company" or "SCL")** is a public company incorporated under the provisions of the Companies Act, 1956. SCL is engaged, inter alia, in the business of manufacturing non-ferrous gravity and pressure die castings and has four manufacturing plants located in Tamil Nadu, group management services' business and business of manufacturing and distributing two & three wheeler vehicles through TVS Motor Company Limited. The Resulting Company is incorporated to carry on the business of manufacturing non-ferrous gravity and pressure die castings. The Resulting Company is a wholly owned subsidiary of SCL.

**C. RATIONALE FOR THIS SCHEME**

- (i) SCL has built up substantial surplus reserves, over the years from its retained profits. The surplus reserves are well above SCL's current and likely future business needs. Further, barring unforeseen circumstances, SCL is confident of generating incremental cash over the next few years. Overall reserves position is expected to improve further even after considering cash requirements for SCL's capex programme and working capital requirements.
- (ii) Further, upon taking into consideration SCL's capability to generate strong cash flow and the surplus reserves being more than what is needed to fund SCL's future growth, SCL is of the view that these excess funds can be optimally utilized to reward its shareholders in such difficult and unprecedented times by way of distribution.
- (iii) At the same time, in keeping with SCL's tradition of conventional cash management and being mindful of the challenging business environment, SCL is of the view that it would be prudent to retain liquidity as well. Accordingly, SCL has proposed, inter alia, to distribute such funds amongst its shareholders by issuing fully paid up non-convertible redeemable preference shares by way of bonus in terms of this Scheme.
- (iv) Non-convertible redeemable preference shares, while giving near-cash (traded, encashable) instrument in the hands of shareholders, give increased flexibility to SCL in managing its liquidity through options like buy back, redemptions, etc.
- (v) In view of the aforesaid factors, SCL has concluded that it can optimally utilize its surplus reserves by distributing a considerable portion of the same to the equity shareholders. In order to maintain high level of corporate governance and transparency, SCL proposes issuance of preference shares by way of bonus under Section 230 of the Act which will be subject to necessary statutory, regulatory and corporate approvals.

- (vi) As part of the restructuring exercise, it is proposed to consolidate all the resources of the Transferor Companies with the Transferee Company. The said amalgamation will result in the following benefits:
  - (a) Streamline the promoter holding structure;
  - (b) Optimal utilisation of resources and better corporate governance; and
  - (c) Reduction of administrative responsibilities, multiplicity of records and legal and regulatory compliances.
- (vii) Given its diversified business, it has become imperative for the Demerged Company to reorient and reorganize itself in a manner that allows imparting greater focus on each of its businesses. With this repositioning, the Demerged Company is desirous of enhancing its operational efficiency.
- (viii) The Scheme proposes to reorganise, segregate and demerge the Demerged Undertaking comprising of manufacturing non-ferrous gravity and pressure die castings from Demerged Company into the Resulting Company and the Demerged Company will be left with group management services' business, trading business and manufacturing of two & three wheeler vehicles through TVS Motor Company Limited.
- (ix) The proposed demerger pursuant to this Scheme is expected, inter alia, to result in following benefits:
  - (a) segregation and unbundling of the businesses of the Demerged Company into the Resulting Company, which will enable enhanced focus on the Demerged Company and Resulting Company for exploiting opportunities of each of the said companies;
  - (b) unlocking of value for the shareholders of the Demerged Company, attracting investors and providing better flexibility in accessing capital, focused strategy and specialisation for sustained growth;
  - (c) logistics alignment leading to economies of scale for the Resulting Company and creation of sectoral efficiencies and benefitting stakeholders as well as optimization of operation and capital expenditure; and
  - (d) enhancing competitive strength, achieving cost optimisation, ensuring benefits through focused management of the financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies of the Resulting Company and the Demerged Company thereby significantly contributing to future growth and maximizing shareholders' value.

The proposed restructuring is in the interest of the shareholders, creditors, employees, and other stakeholders in each of the companies.

### **INDEPENDENT AUDITOR'S REPORT**

**TO THE BOARD OF DIRECTORS OF TVS HOLDINGS PRIVATE LIMITED** (Formerly Known As TVS Investments And Holdings Private Limited & Cheema Investments And Holdings Private Limited)

#### **Report on the Audit of the Interim Standalone Financial Statements**

##### **Opinion**

We have audited the accompanying interim standalone financial statements of **TVS HOLDINGS PRIVATE LIMITED** (Formerly Known As TVS Investments And Holdings Private Limited & Cheema Investments And Holdings Private Limited) (the "Company"), which comprise the Balance Sheet for the quarter ended **30<sup>th</sup> June, 2022**, the Statement of Profit and Loss Statement of Cash Flows for the three months ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "interim standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid interim standalone financial statements give a true and fair view in conformity with recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34") prescribed under section 133 of the Companies Act, 2013 (the "Act"), read with relevant rules issued thereunder and other accounting principles generally accepted in India, of the state of affairs of the Company for the quarter ended **30<sup>th</sup> June, 2022**, the loss for the three months ended on that date and its cash flows for the three months ended on that date.

##### **Basis for Opinion**

We conducted our audit of the interim standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Interim Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the interim standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

### **Management's Responsibilities for the Interim Standalone Financial Statements**

The Company's Board of Directors is responsible for the preparation and presentation of these interim standalone financial statements that give a true and fair view of the financial position, financial performance, including cash flows of the Company in accordance with Ind AS 34 and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the interim condensed standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the interim standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Interim Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the interim standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these interim standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the interim condensed standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on effectiveness of the Company's internal financial controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the interim standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the interim standalone financial statements, including the disclosures, and whether the interim standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the interim standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the interim standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the interim standalone financial statements.

We also communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

- (v) Government grants that are directly attributable to the assets acquired.

However, cost excludes excise duty, value added tax, service tax and GST, and to the extent credit of the duty or tax is availed of.

The carrying amount of any component accounted for as separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Gains or losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the Statement of Profit and Loss within Other gains/(losses).

**6. Depreciation**

- i) Depreciation on tangible fixed assets is charged over the estimated useful life of the asset or part of the asset (after considering double/triple shifts) as evaluated by a Chartered Engineer and in accordance with Ind AS 16, taking into consideration both usage, useful life and legal limitations on the use of assets, on straight line method, in accordance with Part A of Schedule II to the Companies Act, 2013. **9. Investments and Other financial assets**

i) Classification:

The Company classifies its financial assets in the following categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through statement of profit and loss), and
- Those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flow.

ii) Measurement:

Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

iii) Equity instruments:

Subsequent to initial recognition, the Company measures all investments in equity (except of the subsidiaries / associates) at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there will be no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in the Statement of Profit and Loss as other income when the Company's right to receive payments is established.

Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately. Where the Company elects to measure fair value through

**10. Investment in subsidiaries / associates:**

Investment in subsidiaries / associates are measured at cost less provision for impairment.

**11. Employee benefits**

i) Short term obligations:

Short term obligations are those that are expected to be settled fully within 12 months after the end of the reporting period. They are recognized upto the end of the reporting period at the amounts expected to be paid at the time of settlement.

ii) Other long term employee benefit obligations:

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are, therefore, recognized and provided for at the present value of the expected future payments to be made in respect of services provided by employee upto the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Other Comprehensive Income.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for atleast twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii) Post-employment obligation:

The Company operates the following post-employment schemes:

a) Defined benefit plans such as gratuity for its eligible employees, pension plan for eligible senior managers; and

b) Defined contribution plan such as provident fund.

iv) Bonus Plans:

The Company recognises a liability and an expense for bonus. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

**12. Borrowings**

Borrowings are initially recognised at fair value, net of transaction cost incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction cost) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings, using the effective interest method. Fees paid on the established loan facilities are recognised as transaction cost of the loan, to the extent that it is probable that some or all the facility will be drawn down.

**TVS HOLDINGS PRIVATE LIMITED**

(CIN: U74999TN2018PTC121693)

Chaitanya, No.12, Khader Nawaz Khan Road, Nungambakkam, Chennai - 600 006

**I. Significant Accounting Policies and Notes forming part of Financial Statements**

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the Statement of Profit and Loss as other gain/(loss).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for over or at least 12 months after the reporting period.

**13. Borrowing Cost**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

**14. Current and Non-current classification**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. In respect of other assets, it is treated as current when it is:

- expected to be realised or intended to be sold or consumed in the normal operating cycle
- held primarily for the purpose of trading
- expected to be realised within twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- it is expected to be settled in the normal operating cycle
- it is held primarily for the purpose of trading
- it is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. In Company's considered view, twelve months is its operating cycle.

#### (i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

**Notes to Financial Statements for the period ended 30.06.2022**

**Financial Instruments and Risk Management**

**25 Fair value measurements**

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

**(ii) Valuation technique used to determine fair value**

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of interest rate swaps is calculated as the present value of estimated cash flows based on observable yield curves.
- the fair value of forward exchange contract and principle only swap is determined using forward exchange rate at the balance sheet date.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

FVTPL - Fair value through statement of Profit and Loss; FVOCI - Fair value through Other Comprehensive Income

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher, than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company, its subsidiary companies and its associates which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls;

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Group and its associates, to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the consolidated financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the period ended 30<sup>th</sup> June, 2022, we have audited the internal financial controls over financial reporting of **TVS Holdings Private Limited** (hereinafter referred to as the 'Holding Company') and its subsidiaries and its associate companies which are incorporated in India, as of that date.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the company, its subsidiaries and its associate companies, which are companies incorporated in India.

**Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that;

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Company its subsidiary companies and its associate companies which are incorporated in India, have, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 30<sup>th</sup> June, 2022, based on internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the guidance note on audit of internal financial controls over financial reporting issued by Institute of Chartered Accountants of India.

**Other matters**

Our aforesaid report under Section 143 (3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to its subsidiary companies and associate companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together, items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests (if any) in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet, respectively.

**Associates**

Associates are all entities over which the Group has significant influence but not control or joint control. (This is generally the case where the Group holds between 20% and 50% of the voting rights). Investments in associates are accounted for using the equity method of accounting after initially being recognized at cost.

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit and loss and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognized as a reduction in the carrying amount of the investment.

**c) Use of estimates**

The preparation of financial statements requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and notes thereto. The management believes that these estimates and assumptions are reasonable and prudent. However, actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in the current and future period. The estimates and underlying assumptions are reviewed on an ongoing basis.

This note provides an overview of the areas that involved a higher degree of judgment or complexity. It also provides an overview of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in the relevant notes together with the information about the basis of calculation for each affected line item in the financial statements

**d) Significant estimates and judgments**

The areas involving significant estimates or judgments are:

- i) Estimation of fair value of unlisted securities - (Refer Note 33)
- ii) Estimation of defined benefit obligation - (Refer Note 38)
- iii) Estimation of useful life of Property, Plant and Equipment - (Refer Note 1(f) and 1(g))

iv) Significant judgements

There are no significant judgements made by the Group in determining the timing of satisfaction of performance obligation. It is determined as per the terms of the contract. - iv) Directly attributable overheads incurred up to the date the asset is ready for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is derecognized when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

combination in which the goodwill arose. The units or group of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the cash generating units.

**Other intangible assets**

Intangible assets acquired separately:

Intangible assets with finite useful lives that are acquired separately and the estimated useful life is more than one year, is capitalised and carried at cost less accumulated amortisation and accumulated impairment losses.

Internally-generated intangible assets - research and development expenditure:

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally generated intangible asset arising from development phase of internal project is recognised, if and only if, the conditions under the Ind AS 34 - Intangible Asset, are fulfilled. If the conditions are not fulfilled the same is recognised in profit and loss in the period in which it is incurred.

The intangible assets are amortised on straight line basis over its useful life, viz., 2 years in the case of software, 8 years in case of acquired brands and trade marks and 6 to 10 years in the case of Design, Development and Technical knowhow.

**j) Loans (receivable from financing activity)**

The Loans (receivable from financing activity) are stated the contract value plus transaction costs less origination income that are directly attributable to the acquisition of the loan. Interest income is recognised using the Effective Interest Rate (EIR) method. Loans are stated at carrying value less impairment loss.

**k) Impairment**

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**l) Foreign currency translation**

**(i) Functional and presentation currency**

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). i.e. in Indian rupees (INR) and all values are rounded off to nearest crores except where otherwise indicated.

**(ii) Transactions and balances**

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction.

(a) Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

(b) Non-monetary items denominated in foreign currency such as investments, fixed assets, etc., are valued at the exchange rate prevailing on the date of transaction.

(c) Exchange differences arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise.

**(iii) Group companies**

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- a) assets and liabilities are translated at the closing rate at the date of that balance sheet
- b) income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- c) all resulting exchange differences are recognised in other comprehensive income.

**m) Hedge accounting**

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either:

- hedges of the fair value of recognized assets or liabilities or a firm commitment (fair value hedges)
- hedges of a particular risk associated with the cash flows of recognized assets and liabilities and highly probable forecast transactions (cash flow hedges), or
- hedges of a net investment in a foreign operation (net investment hedges).

The Group documents at the inception of the hedging transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

The fair values of various derivative financial instruments used for hedging purposes are disclosed in Note 33. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in the other comprehensive income in cash flow hedging reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognized immediately in the Statement of Profit and Loss, within other gains/ (losses).

**1. SIGNIFICANT ACCOUNTING POLICIES**

When forward contracts are used to hedge forecast transactions, the Group generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Gains or losses relating to the effective portion of the change in the spot component of the forward contracts are recognized in other comprehensive income in cash flow hedging reserve within equity. In some cases, the entity may designate the full change in fair value of the forward contract (including forward points) as the hedging instrument. In such cases, the gains and losses relating to the effective portion of the change in fair value of the entire forward contract are recognized in the cash flow hedging reserve within equity.

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects the Statement of Profit and Loss (for example, when the forecast sale that is hedged takes place).

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to the Statement of Profit and Loss within other gains/ (losses).

**n) Inventories**

Inventories are valued at the lower of cost and net realizable value.

- i. Cost of raw materials, components, stores, spares, work-in-process and finished goods are determined on a moving average basis.
- ii. Cost of finished goods and work-in-process comprises of direct materials, direct labour and an applicable proportion of variable and fixed overhead expenditure, fixed overhead expenditure absorbed on the basis of normal operating capacity.
- iii. Costs are assigned to individual items of inventory on the basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.
- iv. Materials and supplies held for use in production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost. Slow and non-moving material, obsolescence, defective inventories are duly provided for.

Land held for development/sale by the real estate subsidiary is valued at the lower of cost and net realizable value. Cost includes cost of acquisition and all related costs.

**o) Employee benefits**

**i) Short term obligations:**

Short term obligations are those that are expected to be settled fully within 12 months after the end of the reporting period. They are recognized upto the end of the reporting period at the amounts expected to be paid at the time of settlement.

**ii) Other long term employee benefit obligations:**

**1. SIGNIFICANT ACCOUNTING POLICIES**

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are, therefore, recognized and provided for at the present value of the expected future payments to be made in respect of services provided by employee upto the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in Other Comprehensive Income.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for atleast twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

iii) Post-employment obligation:

The Group operates the following post-employment schemes:

- a) Defined benefit plans such as gratuity for its eligible employees, pension plan for eligible senior managers; and
- b) Defined contribution plan such as provident fund.

a) Pension and gratuity obligation:

The liability or asset recognized in the balance sheet in respect of defined benefit pension and gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on the government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income (net of deferred tax). They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in the Statement of Profit and Loss as past service cost.

b) Provident fund:

The eligible employees of the Group are entitled to receive benefits in respect of provident fund, a defined contribution plan, in which both employees and the Group make monthly contributions at a specified percentage of the covered employees' salary. The provident fund contributions are made to an irrevocable trust set up by the Group. The Group is generally liable for annual contributions and any shortfall in the fund assets based on the Government specified minimum rates of return and recognizes such contributions and shortfall, if any, as an expense in the year in which it is incurred.

iv) Bonus plans:

The Group recognizes a liability and an expense for bonus. The Group recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

**1. SIGNIFICANT ACCOUNTING POLICIES**

**p) Taxes on income**

Tax expense comprises of (i) current tax and (ii) deferred tax.

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Where the Group is entitled to claim special tax deductions for investments in qualifying assets or in relation to qualifying expenditure (the Research and Development or other investment allowances), the Group accounts for such allowances as tax credits, which means that the allowance reduce income tax payable and current tax expense. A deferred tax asset is recognized for unclaimed tax credits that are carried forward as deferred tax assets.

**q) Government Grants**

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants receivable as compensation for expenses or financial support are recognized in profit or loss of the period in which it becomes available.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

**1. SIGNIFICANT ACCOUNTING POLICIES**

In case of waiver of duty under EPCG licence, such grant is considered as revenue grant and recognized in "Other Income" on completion of export obligation as approved by Regulatory Authorities.

**r) Provisions and contingent liabilities**

**i) Provision:**

A provision is recorded when the Group has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated. The estimated liability for product warranties is accounted based on technical evaluation, when the products are sold.

Provisions are evaluated at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expenses.

**ii) Contingent liabilities:**

Wherever there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability are considered as contingent liability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

**s) Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The group has identified the following business segments as reportable segments, (on the basis of products and production process) viz., (1) Automotive vehicles and parts, (2) Automotive components (3) Financial Services and (4) Others

**t) Leases**

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Contracts may contain both lease and non-lease components. The Company allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Company is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Company under residual value guarantees
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option, and

**1. SIGNIFICANT ACCOUNTING POLICIES**

- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

The Company is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on sales are recognized in profit and loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- Restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

**u) Cash and Cash equivalents**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

**v) Trade receivables**

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method, less provision for impairment.

**w) Contract Liabilities**

A contract liability is the obligation to transfer goods to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the consideration is received. Contract liabilities are recognized as revenue when the Company performs under the contract.

**x) Investments and Other financial assets**

**i) Classification**

The Group classifies its financial assets in the following categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through statement of profit and loss), and
- Those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flow.

**ii) Measurement**

At initial recognition, the Group measures a financial asset at its fair value plus (in the case of a financial asset not a fair value through profit or loss) transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

**(A) Debt Instruments:**

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Group classifies its debt instruments.

**(i) Amortized Cost:**

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on debt instrument that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in the Statement of Profit and Loss when the asset is de-recognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

**(ii) Fair Value through profit or loss:**

Assets that do not meet the criteria for amortized cost or Fair Value through Other Comprehensive Income (FVOCI) are measured at Fair Value Through Profit or Loss (FVTPL). A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss

and presented in the statement of profit and loss within other gains / (losses) in the period in which it arises. Interest income from these financial assets is included in other income.

(B) Equity instruments:

The Group subsequently measures all investments in equity (except of the subsidiaries / associates) at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there will be no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognized in the Statement of Profit and Loss as other income when the Group's right to receive payments is established.

Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately. Where the Group elects to measure fair value through profit and loss, changes in the fair value of such financial assets are recognized in the statement of profit and loss.

(iii) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been significant increase in credit risk. Note 34(A) and Note 35 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected credit losses to be recognized from initial recognition of the receivables.

For loans given by financial enterprise the impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 35 details how the Group determines whether there has been a significant increase in credit risk.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

(iv) Derecognition of financial assets

A financial asset is derecognised only when:

- a) The Group has transferred the rights to receive cash flows from the financial asset or
- b) The Group retains the contractual rights to receive the cash flows of the financial asset, but expects a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised, if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

(v) Income recognition

**1. SIGNIFICANT ACCOUNTING POLICIES**

**Interest income:**

Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying value of a financial asset. While calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options), but does not consider the expected credit losses.

**Dividend income:**

Dividends are recognized in statement of profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of dividend can be reliably measured.

**y) Borrowings**

Borrowings are initially recognized at fair value, net of transaction cost incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction cost) and the redemption amount is recognized in the Statement of Profit and Loss over the period of the borrowings, using the effective interest rate method. Fees paid on the established loan facilities are recognized as transaction cost of the loan, to the extent that it is probable that some or all the facility will be drawn down.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in the Statement of Profit and Loss as other gain/(loss).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for over or atleast 12 months after the reporting period.

**z) Current and Non-current classification**

The Group presents assets and liabilities in the balance sheet based on current / non-current classification.

Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for atleast twelve months after the reporting period. In respect of other assets, it is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period.

All other assets are classified as non-current.

All liability is treated as current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

**1. SIGNIFICANT ACCOUNTING POLICIES**

- There is no unconditional right to defer the settlement of the liability for atleast twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. In Group's considered view, twelve months is its operating cycle for all entities within the Group other than real estate.

The normal operating cycle in respect of operation relating to real estate project depends on signing of agreement, size of the project, phasing of the project, type of development, project complexities, approvals needed and realization of project into cash and cash equivalents and range from 3 to 7 years. Accordingly, assets and liabilities have been classified into current and non-current based on operating cycle.

**za) Borrowing Cost**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

**zb) Earnings Per Share (EPS)**

Basic earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares outstanding during the year/period.

Diluted earnings per share is computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

**zc) Recent pronouncements**

The Ministry of Corporate Affairs has vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective 1 April 2022. Below is a summary of such amendments and requirements. No significant impact is expected on adoption of these standards.

**(i) Ind AS 16, Property, Plant and Equipment (PPE)**

The amendment clarified that an entity shall deduct from the cost of an item of PPE any proceeds received from selling items produced while the entity is preparing the asset for its intended use.

**(ii) Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets**

**Onerous Contracts – Cost of fulfilling a contract**

The amendment explains that the cost of fulfilling a contract comprises: the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts.

<b>(i) Fair value hierarchy</b>									
This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

<p><b>Level 1:</b> Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.</p> <p><b>Level 2:</b> The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.</p> <p><b>Level 3:</b> If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, preference shares and other non current investments included in level 3.</p> <p>There are no transfers between levels 1 and 2 during the year.</p> <p><b>(ii) Valuation technique used to determine fair value (Level 2)</b></p> <p>Specific valuation techniques used to value financial instruments include:</p> <ul style="list-style-type: none"> <li>- the use of quoted market prices or dealer quotes for similar instruments</li> <li>- the fair value of interest rate swaps is calculated as the present value of estimated cash flows based on observable yield curves.</li> <li>- the fair value of forward exchange contract and principle only swap is determined using forward exchange rate at the balance sheet date.</li> <li>- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.</li> </ul> <p><b>(iii) Fair value measurement using significant unobservable inputs (Level 3)</b></p>

Notes to Consolidated Balance Sheet for the year ended 30th June 2022

#### 34 Financial risk management

The group's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements

Risk	Exposure arising from	Risk Parameters and Mitigation
<u>Market Risk - Foreign exchange</u>		i) The Group operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions. ii) Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency (INR). iii) The risk is measured through a forecast of highly probable foreign currency cash flows. The Group has a forex management policy which is duly approved by the Board. iv) The objective of the hedges when taken is to minimise the volatility of the INR cash flows of highly probable forecast transactions.
<u>Market Risk - Interest rate</u>	Foreign currency denominated borrowings	i) The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. ii) Group's policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary. iii) The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.
<u>Liquidity risk</u>	INR denominated borrowings (Other than soft loans given by Govt. Authorities)	i) The Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans. ii) The Group prepares a detailed annual operating plans to assess the fund requirements - both short term and long term. iii) Detailed month wise cash flow forecast is also carried out along with required sensitivities. Based on these factors adequate working capital credit limits are organised in advance. iv) Group has pre-approved credit lines with various banks and these are constantly reviewed and approved by the Board. v) For long term fund requirements, Group targets various options such as rupee term loan, external commercial borrowing, debentures etc. vi) The Group obtains a credit rating for the various borrowing facilities on annual basis. Group constantly monitors the free cash flow from operations to ensure that the borrowing is minimized.
<u>Credit Risk</u>		i) Credit risk primarily arises from cash and cash equivalents, trade receivables and investments carried at amortised cost. ii) The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. iii) To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. iv) It considers available reasonable and supportive forwarding-looking information (more specifically described below). In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 30 days past due. v) A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.
	a. Cash and Cash Equivalents	Surplus cash is deposited only with banks / financial institutions with a high external credit rating.
	b. Domestic Trade Receivables	i) Domestic sales to the Dealers are based on advance payments received through banking channels or through inventory funding facilities availed by them from the banks. ii) The Group extends limited credit to the dealers and such extension of credit is based on dealers' credit worthiness, ability to repay and past track record. iii) The Group has extensive reporting systems and review to constantly monitor the outstandings.
	c. Export Trade Receivables	The Group's export business is mostly based on Letters of credit. Export receivables are also covered through Insurance with Export Credit Guarantee Corporation of India Limited.
Risk	Exposure arising from	Risk Parameters and Mitigation
Export trade receivables and Import Payables		i) The Group has a forex management policy duly approved by the Board. The Group's policy is to hedge most of its net currency exposure. ii) Group reviews the forex exposure on a regular basis and also reports its adherence to the Board on a quarterly basis. The recording and reporting requirements under are strictly adhered.
Foreign currency denominated borrowings		The Group has hedged its borrowings by covering the principal repayments.

<p>Financial services business has a comprehensive framework for monitoring credit quality of its retail and other loans based on days past due monitoring. Repayment by individual customers and portfolio is tracked regularly and required steps for recovery is taken through follow ups and legal recourse.</p>	
<p><b>Inputs considered in the ECL model</b></p> <p>In assessing the impairment of loans assets under Expected Credit Loss (ECL) Model, the loan assets have been segmented into three stages.</p> <p>The three stages reflect the general pattern of credit deterioration of a financial instrument. The differences in accounting between stages relate to the recognition of expected credit losses and the calculation and presentation of interest revenue.</p> <p>The company categorises loan assets into stages based on the days past due status:</p> <ul style="list-style-type: none"> <li>— Stage 1: 30 days past due</li> <li>— Stage 2: 31-90 days past due</li> <li>— Stage 3: more than 90 days past due</li> </ul>	
<p><b>Assumptions considered in the ECL model</b></p> <p>The financial services business has made the following assumptions in the ECL Model:</p> <ul style="list-style-type: none"> <li>— "Loss given default" (LGD) is common for all three stages and is based on loss in past portfolio. Actual cash flows are discounted with average rate for arriving loss rate. Effective Interest Rate (EIR) has been taken as discount rate for all loans.</li> </ul> <p>Estimation Technique</p> <p>The financial services business has applied the following estimation technique in its ECL model :</p> <ul style="list-style-type: none"> <li>— "Probability of default" (PD) is applied on Stage 1 and Stage 2 on portfolio basis and for Stage 3 PD is 100%.</li> <li>— Probability of default for Stage 1 loan assets is calculated as average of historical trend from Stage 1 to Stage 3 in next 12 months.</li> <li>— Probability of default for Stage 2 loan assets is calculated based on the lifetime PD as average of historical trend from Stage 2 to Stage 3 for the remaining tenor.</li> <li>— Loss given default is calculated based on discounted actual cash flow on past portfolio in default along with reversals.</li> </ul>

The internal estimates of PD, LGD rates used in the ECL model may not always capture all the characteristics of the market / external environment as at the date of the financial statements. To reflect this, qualitative adjustments or overlays are made as temporary adjustments to reflect the emerging risks reasonably.</p> <p><b>Assessment of significant increase in credit risk</b></p> <p>When determining whether the risk of default has increased significantly since initial recognition, the financial services business considers both quantitative and qualitative information and analyses based on the business historical experience, including forward-looking information. The financial services business considers reasonable and supportable information that is relevant and available without undue cost and effort.</p> <p>The financial services business uses the number of days past due to classify a financial instrument in low credit risk category and to determine significant increase in credit risk in retail. As a backstop, the financial services business considers that a significant increase in credit risk occurs no later than when an asset is more than 30 days past due.</p> <p>In accordance with the board approved moratorium policy read with the Reserve Bank of India (RBI) guidelines dated March 27, 2020 and April 17, 2020 relating to 'COVID-19 – Regulatory Package', the Company has offered moratorium upto six months on the payment of installments falling due between March 1, 2020 and August 31, 2020 to all eligible borrowers. The Company has extended One-Time Resolution framework as for COVID-19-related Stress to eligible customers as per applicable RBI guidelines and as per the policy of the Company. Due to this uncertainty, Company's assessments of impairment loss allowance on its loans are subject to a number of management judgements and estimates. Since the Company's impairment loss allowance estimates are inherently uncertain, actual results may differ from these estimates</p>

In Crores)</b></p> <p>The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the defined benefit liability recognised in the balance sheet.</p> <p><b>(iii) Risk exposure</b></p> <p>Through its defined benefit plans, The Group is exposed to a number of risks, the most significant of which are detailed below:</p> <p><b>Asset volatility:</b> The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments is in fixed income securities with high grades and in government securities. These are subject to interest rate risk and the fund manages interest rate risk with derivatives to minimise risk to an acceptable level. A portion of the funds are invested in equity securities and in alternative investments which have low correlation with equity securities. The equity securities are expected to earn a return in excess of the discount rate and contribute to the plan deficit. The group has a risk management strategy where the aggregate amount of risk exposure on a portfolio level is maintained at a fixed range. Any deviations from the range are corrected by rebalancing the portfolio. The group intends to maintain the above investment mix in the continuing years.</p> <p><b>Changes in bond yield:</b> A decrease in bond yields will increase plan liabilities, although this will be partially offset by an yields increase in the value of the plans' bond holdings.</p> <p><b>Inflation risks:</b> In the pension plans, the pensions in payment are not linked to inflation, so this is a less material risk.</p> <p><b>Life expectancy:</b> The pension plan obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan liabilities. This is particularly significant where inflationary increases result in higher sensitivity to changes in life expectancy.</p> <p><b>(iv) Defined contribution plans:</b>                  The Company's contribution to defined contribution plan i.e., provident fund of Rs.35.32 crores (previous year Rs.60.32 crores) has been recognised in the Statement of Profit and Loss.</p>

**INDEPENDENT AUDITOR'S REPORT**

**TO THE BOARD OF DIRECTORS OF VS INVESTMENTS PRIVATE LIMITED**

**Report on the Audit of the Interim Standalone Financial Statements**

**Opinion**

We have audited the accompanying interim standalone financial statements of **VS INVESTMENTS PRIVATE LIMITED** (the "Company"), which comprise the Balance Sheet for the quarter ended **30<sup>th</sup> June, 2022**, the Statement of Profit and Loss and Statement of Cash Flows for the three months ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "interim standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid interim standalone financial statements give a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34") prescribed under section 133 of the Companies Act, 2013 (the "Act"), read with relevant rules issued thereunder and other accounting principles generally accepted in India, of the state of affairs of the Company for the quarter ended **30<sup>th</sup> June, 2022**, the loss for the three months ended on that date and its cash flows for the three months ended on that date.

**Basis for Opinion**

We conducted our audit of the interim standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Interim Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the interim standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

**Management's Responsibilities for the Interim Standalone Financial Statements**

The Company's Board of Directors is responsible for the preparation and presentation of these interim standalone financial statements that give a true and fair view of the financial position, financial performance, including cash flows of the Company in accordance with IND AS 34 and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the interim standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the interim condensed standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibilities for the Audit of the Interim Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the interim standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these interim standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the interim standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on effectiveness of the Company's internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the interim standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the interim condensed standalone financial statements, including the disclosures, and whether the interim condensed standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the interim standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the interim standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the interim condensed standalone financial statements.

We also communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Deferred income tax is provided in full, using the balance sheet method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses

**d) Earning Per Share**

The basic and diluted earning per share is computed by dividing the net profit / loss attributable to equity share holders for the year by the weighted average number of equity shares outstanding during the year.

**e) Provisions & Contingencies**

The Company recognizes a provision when there is a present obligation as a result of a past event that probably requires outflow of resources, which can be reliably estimated.

Wherever there is a possible obligation that may, but probably will not require an outflow of resources, the same is disclosed by way of contingent liability.

**f) Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable and net of returns, trade allowances and rebates and amounts collected on behalf of third parties.

Sale of products:

Revenue from sale of products is recognised when significant risk and rewards of ownership pass to the customers, as per the terms of the contract and it is probable that the economic benefits associated with the transaction will flow to the Company.

**1 Significant Accounting Policies and Notes forming part of Financial Statements:**

**g) Trade receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less provision for impairment.

**h) Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for atleast twelve months after the reporting period. In respect of other assets, it is treated as current when it is:

- expected to be realised or intended to be sold or consumed in the normal operating cycle
- held primarily for the purpose of trading
- expected to be realised within twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- it is expected to be settled in the normal operating cycle
- it is held primarily for the purpose of trading
- it is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer the settlement of the liability for atleast twelve month after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. In Company's considered view, twelve months is its operating cycle.

**1 Significant Accounting Policies and Notes forming part of Financial Statements:**

**i) Borrowings:**

Borrowings are initially recognised at fair value, net of transaction cost incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction cost) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings, using the effective interest method. Fees paid on the established loan facilities are recognised as transaction cost of the loan, to the extent that it is probable that some or all the facility will be drawn down.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the Statement of Profit and Loss as other gain/(loss).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for over or at least 12 months after the reporting period.

#### (i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

#### Assets and liabilities which are measured at amortised cost for which fair values are disclosed

At 30 June 2022	Notes	Level 1	Level 2	Level 3	Total
<b>Financial Liabilities</b>					
Borrowings	11	-	-	1,72,200.00	1,72,200.00
<b>Total financial liabilities</b>		-	-	1,72,200.00	1,72,200.00
<b>At 31 March 2022</b>					
<b>Financial Liabilities</b>					
Borrowings	11	-	-	1,72,000.00	1,72,000.00
<b>Total financial liabilities</b>		-	-	1,72,000.00	1,72,000.00

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

#### (ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of interest rate swaps is calculated as the present value of estimated cash flows based on observable yield curves.
- the fair value of forward exchange contract and principle only swap is determined using forward exchange rate at the balance sheet date.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

FVTPL - Fair value through statement of Profit and Loss; FVOCI - Fair value through Other Comprehensive Income

**INDEPENDENT AUDITOR'S REPORT**

**TO THE BOARD OF DIRECTORS OF SUNDARAM - CLAYTON DCD LIMITED**

**Report on the Audit of the Interim Standalone Financial Statements**

**Opinion**

We have audited the accompanying interim standalone financial statements of **SUNDARAM - CLAYTON DCD LIMITED**( formerly knowns as **TVS Commodity Financial Solutions Private Limited** (the "Company"), which comprise the Balance Sheet for the quarter ended 30<sup>th</sup> June, 2022, the Statement of Profit and Loss and Statement of Cash Flows for the three months ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "interim standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid interim standalone financial statements give a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34") prescribed under section 133 of the Companies Act, 2013 (the "Act"), read with relevant rules issued thereunder and other accounting principles generally accepted in India, of the state of affairs of the Company for the quarter ended 30<sup>th</sup> June, 2022, and its cash flows for the three months ended on that date.

**Basis for Opinion**

We conducted our audit of the interim standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Interim Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the interim standalone financial statements for the quarter ended June 30, 2022 under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

### **Management's Responsibilities for the Interim Standalone Financial Statements**

The Company's Board of Directors is responsible for the preparation and presentation of these interim standalone financial statements that give a true and fair view of the financial position, financial performance, including cash flows of the Company in accordance with IND AS 34 and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the interim condensed standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the interim standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Interim Condensed Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the interim standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these interim standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the interim standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on effectiveness of the Company's internal financial controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the interim standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the interim standalone financial statements, including the disclosures, and whether the interim standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the interim standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the interim standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the interim standalone financial statements.

We also communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**3. Data obtained**

4.1 I have called for and obtained such data, information, etc. as were necessary for the purpose of this assignment, which have been, as far as possible, made available to me by the Management.

**Appendix A** hereto broadly summarizes the data obtained.

4.1 For the purpose of this assignment, I have relied on such data summarized in the said Appendix and other related information and explanations provided to me in this regard.

**4. Consideration of Factors for Determination of Share Entitlement Ratios**

- 4.1 For the purpose of arriving at a fair ratio of entitlement for the proposed transfers, I have examined, considered and placed reliance on various details, data, documents, accounts, statements furnished and explanations and information given to me and have proceeded to find out the ratios on consideration of various factors as follows:
- 4.2 Fair ratio for the proposed amalgamation of THPL with SCL.
- 4.2.1 Assets and liabilities of THPL as on January 31, 2022 based on its Audited Balance Sheet are given in Appendix D hereto.
- 4.2.2 Pursuant to an earlier composite scheme of arrangement for which order of the NCLT dated December 6, 2021 was passed, THPL has, *inter alia*, acquired 1,30,94,460 (64.72%) equity shares of the SCL, effective February 4, 2022. Under the same order, THPL has also been assigned a loan of Rs. 80 Cr. This loan will be repaid out of internal accruals and to the extent not so met will be met out of sale of shares of SCL.
- 4.2.3 Pursuant to clause 10.1 of the Scheme, SCL will issue Redeemable Preference Shares ("RPS") to THPL.
- 4.2.4 Further, the cash balance of THPL will be utilized to settle stamp duty dues for the proposed transfer and hence no consideration is required to be issued for the same.
- 4.2.5 The assets and liabilities of THPL as on Appointed Date 2 would be transferred to SCL at the values as appearing in the books of THPL.
- 4.2.6 Thus, upon the scheme becoming effective, the shares of SCL held by THPL will vest in SCL. Thereupon, the shareholders of THPL will be allotted shares of SCL.
- 4.2.7 The Equity Shares of SCL held by THPL as at Appointed Date 2 will stand cancelled and for the shares of SCL previously held by THPL, equivalent number of equity shares of SCL will be issued to the shareholders of THPL. In the event, THPL holds less than 1,30,94,460 equity shares of SCL on the Appointed Date 2, the equity shares to be issued by SCL in consideration of the amalgamation of THPL shall stand reduced by such decreased number of equity shares held in SCL.
- 4.2.8 RPS of SCL as held by THPL on Appointed Date 2 will stand cancelled upon amalgamation of THPL with SCL and in consideration for the same, new RPS of SCL with same terms will be issued to the shareholders of THPL. Since, the terms of the RPS held by THPL and the new RPS to be issued to the shareholders of THPL are the same, equivalent number of RPS of SCL will be issued to the Shareholders of THPL.
- 4.2.9 Since assets of THPL as at the Valuation Date will mainly consist of investment in SCL and in consideration an equivalent number of shares of SCL are proposed to be issued under the scheme, I have not carried a valuation of these entities as per the generally accepted principles of valuation.

*Drushti R. Desai*

*Report on Allotment of Shares*

**4.3 Fair ratio for the proposed exchange of loan given to Promoters by VIPL against RPS of SCL held by the Promoters**

- 4.3.1 The Promoters have borrowed from VIPL which is repayable on February 2, 2024.
- 4.3.2 Pursuant to merger of THPL into SCL the Promoters of THPL would have been allotted RPS of face value of Rs. 10 each carrying a coupon of 9% p.a. and redeemable on February 2, 2024, or 12 months from the date of allotment, whichever is later.
- 4.3.3 Promoters would settle this loan with interest by transferring the RPS received by them pursuant to amalgamation of THPL with SCL, at fair value as on Appointed Date 2 and the shortfall will be settled with their own funds.

**4.4 Fair ratio for the proposed amalgamation of VIPL with SCL**

- 4.4.1 Assets and liabilities of VIPL would be transferred to SCL at values as appearing in the books of VIPL as on Appointed Date 3.
- 4.4.2 As discussed in para 4.3.3, VIPL will acquire RPS of SCL from the Promoters.
- 4.4.3 Based on the provisional balance sheet (Appendix E) as of VIPL as on February 8, 2022, provided by the Management, borrowings of VIPL amount to of Rs. 1,720 Cr. and VIPL's net-worth was Rs. 78,504/-.
- 4.4.4 As mentioned above, all assets and liabilities of VIPL are to be transferred at their book values and accordingly, equity shares of SCL will be issued in consideration for the same at the value of the net-worth of VIPL as per its financial statements as at the Appointed Date 3.
- 4.4.5 For the purpose of determining the number of Equity Shares to be issued in consideration for the amalgamation of VIPL, the value per share of SCL has been taken as Rs. 4,195/- being the value per Share of SCL as per Regulation 164 (1) of SEBI (ICDR) Regulations, 2018, as on February 8, 2022. It may be noted that the above value of the Equity Shares of SCL as per ICDR Regulations is without considering the impact of issue of bonus RPS to the equity shareholders. The issue of bonus RPS could have a downward impact on the value of shares. Accordingly, the value considered for issue of shares by SCL is considered on a higher side. This would result in a lower number of equity shares of SCL being issued to the Promoter Family and does not go against the interest of the public shareholders. However, if the ICDR price on Appointed Date 3 is higher than Rs. 4,195/-, the same will prevail.
- 4.4.6 Since assets of VIPL as at the Valuation Date will mainly consist of investment in SCL and in consideration a nominal number of shares of SCL are proposed to be issued under the scheme, I have not carried a valuation of these entities as per the generally accepted principles of valuation.

**4.5 Fair Ratio for the Proposed Demerger of the Demerged Undertaking into the Resulting Company**

*Drushti R. Desai*

*Report on Allotment of Shares*

- 4.5.1 The assets and liabilities identified as pertaining to or in relation to the Demerged Undertaking would be transferred to the Resulting Company at values appearing in the books of the Demerging Company as on Appointed Date 4, pursuant to the Scheme.
  - 4.5.2 In consideration of the transfer all the shareholders of SCL will be allotted shares of the Resulting Company. Accordingly, the equity shareholders of SCL will receive equity shares in the Resulting Company and the RPS holders of SCL will receive RPS in the Resulting Company.
  - 4.5.3 Hence, there is no need to adjust the equities between the disparate set of shareholders.
  - 4.5.4 Upon implementation of the Scheme, all shareholders of SCL would become shareholders in the Resulting Company. Since, there is no change in the shareholding pattern, I have not carried a valuation of these entities as per the generally accepted principles of valuation.
- 4.6 It may be noted that the Institute of Chartered Accountants of India (ICAI) on June 10, 2018 has issued the ICAI Valuation Standards ("IVS") effective for all the valuation reports issued on or after July 1, 2018. The IVS is mandatory for the valuation done under the Companies Act, 2013, and recommendatory for valuation carried out under other statutes/ requirements. However, as the current exercise does not entail valuation, the question of following the Valuation Standards does not arise.

## **5. Conclusion**

Based on the foregoing data, considerations and steps followed, in my opinion the fair ratios of entitlement for the proposed transfers would be as follows:

(i) For merger of THPL into SCL:

For 20,00,00,000 Equity Shares of Re. 1 Each held in THPL, 1,30,94,460 Equity Shares of SCL of Rs. 5/- each and 1,51,89,57,360 Redeemable Preference Shares of SCL of Rs. 10/- each to be distributed among the shareholders of THPL in the proportion of their holding. In the event, THPL holds less than the above stated number of equity shares and RPS of SCL on the Appointed Date 2, the equity shares and RPS to be issued by SCL in consideration of the amalgamation of THPL shall stand reduced by such decreased number of equity shares and RPS held in SCL.

(ii) For merger of VIPL into SCL:

For every 1,00,000 Equity Shares of Rs. 1/- each held in VIPL, 19 Equity Shares of SCL of Rs. 5/- each to be distributed among the shareholders of VIPL in the proportion of their holding.

(iii) For demerger of SCL

For every 1 Equity Share of Rs. 5/- each held in SCL, 1 Equity Shares of the Resulting Company of Rs. 5/- each and 1 RPS of Rs. 10/- each for every 1000 RPS held in SCL.

Dear Sir/ Madam,

**SUB:** Addendum to the Report dated February 09, 2022 recommending ratio of share entitlement ("Share Entitlement Ratio Report" or "the Report") for the proposed amalgamation of TVS Holdings Private Limited ("THPL") and VS Investments Private Limited ("VIPL") into Sundaram Clayton Limited ("SCL")

This letter is in response to your email dated April 05, 2022 requesting me to update the Share Entitlement Ratio Report for captioned subject on account of the Composite Scheme of Amalgamation and Arrangement involving, inter alia, T.V. Sundram Iyengar & Sons Private Limited ("TVSS"), Sundaram Industries Private Limited, Southern Roadways Private Limited and TVS Holdings Private Limited ("THPL"), as approved vide National Company Law Tribunal Order dated December 6, 2021, was made effective on January 6, 2022 (First appointed Date). As per the Scheme, the auto parts business and die casting business undertaking was transferred and vested with THPL, on February 4, 2022 (Second Appointed Date), after 18 business days from the First Appointed Date.

Pursuant to the said scheme, 2,010 fully paid-up equity shares of INR 1/- each of THPL are issued and allotted for every 1,00,000 Equity Shares of Rs. 100 each held by the shareholders of TVSS, as consideration. Accordingly, 31,664 equity shares of THPL were allotted on 1st March 2022.

The Share Entitlement Ratio Report issued by us considers the share capital of THPL as 20,00,00,000 Equity Shares of INR 1/- each on February 9, 2022, being the date of the Report. However, pursuant to the aforesaid allotment, the number of shares of THPL is 20,00,31,664 Equity Shares of INR 1/- each.

Accordingly, our recommendation of fair exchange ratio in the Share Entitlement Ratio Report at para 5(i) should be read as under:

#### For merger of THPL into SCL

Dear Sir/ Madam,

**SUB: Addendum to the Report dated February 09, 2022 recommending ratio of share entitlement ("Share Entitlement Ratio Report" or "the Report") for the proposed amalgamation of TVS Holdings Private Limited ("THPL") and VS Investments Private Limited ("VIPL") into Sundaram Clayton Limited ("SCL")**

Upon Amalgamation of VIPL, shares of SCL are to be allotted to the shareholders of VIPL. This is on a future date after several other transactions are undertaken in SCL. It is for this reason that we had discussed about the impact on the market price under SEBI (ICDR) Regulations, 2018. This may not be required considering that the Relevant Date is only the date of the Board meeting approving the scheme for the captioned transaction. In view of the foregoing, para 4.4.5 of the Report should read as follows:

4.4.5 For the purpose of determining the number of Equity Shares to be issued in consideration for the amalgamation of VIPL, the value per share of SCL has been taken as Rs. 4,195/- being the value per Share of SCL as per Regulation 164 (1) of SEBI (ICDR) Regulations, 2018, as on February 8, 2022.

Terms not defined in this letter should take its meaning from the Report.

This letter should be read along with my Share Entitlement Report and the limitations mentioned therein.

### INTERNAL RISK FACTORS

The below-mentioned risks are the top 5 risk factors:

#### 1. Business Strategy Risk

We rely on regulated and unregulated markets for revenue. Lack of strategy roadmap for revenue growth of the site may lead to the non-achievement of growth objectives. Also, the dependence of existing customer base for new business could result in restricted growth. Growth restriction and complete dependency on existing customers and existing set of products.

#### 2. Compliance Risk

Any non-compliance with the regulatory and environment laws of land may lead to penalties and fines.

#### 3. IT Risk

We rely on information technology systems, networks and infrastructure to operate our business and any interruption or breakdown in such systems, networks or infrastructure could impair our ability to effectively deliver our products and services. The inability of the Company to suitably upgrade its IT infrastructure may impair its ability to efficiently manage its business and deliver accurate information to various internal and external stakeholders. Further, any cyber-attack on our systems & firewall failure could cause inability to function and transact.

#### 4. External Factors

The risk of customer attrition is significantly high because of the high gestation period in product development and launch. The financial health of customers i.e. solvency of customers, funding issues, and M&A may exert a significant adverse impact on services rendered impacting revenue & EBIDTA and the Profit & Loss statement, overall.

#### 5. Supply Chain Management

Due to COVID there are many restrictions on international routes & hence sourcing of raw materials and export of goods to multiple geographies becomes challenging and newer and longer routes needs to be taken which make transportation cost costly. These factors also create a risk of overstocking/building of inventories and working capital blockages.

### INTERNAL RISK FACTORS

**The below mentioned risks are top 5 risk factors as per the Abridged Prospectus:**

#### 1. Business Strategy Risk

We rely on regulated and unregulated markets for revenue. Lack of strategy roadmap for revenue growth of the site may lead to the non-achievement of growth objectives. Also, the dependence of existing customer base for new business could result in restricted growth. Growth restriction and complete dependency on existing customers and existing set of products.

#### 2. Compliance Risk

Any non-compliance with the regulatory and environmental laws of the land may lead to penalties and fines.

#### 3. IT Risk

We rely on information technology systems, networks and infrastructure to operate our business and any interruption or breakdown in such systems, networks or infrastructure could impair our ability to effectively deliver our products and services. The inability of the Company to suitably upgrade its IT infrastructure may impair its ability to efficiently manage its business and deliver accurate information to various internal and external stakeholders. Further, any cyber-attack on our systems & firewall failure could cause inability to function and transact.

#### 4. External Factors

Risk of customer attrition is significantly high because of the high gestation period in product development and launch. The financial health of customer i.e. Solvency of customer, Funding issues, M&A may exert a significant adverse impact on services rendered impacting revenue & EBITDA and the Profit & Loss statement, overall.

#### 5. Supply Chain Management

Due to COVID there are many restrictions on international routes & hence sourcing of raw materials and export of goods to multiple geographies becomes challenging and newer and longer routes needs to be taken which make transportation cost costly. These factors also create risk of overstocking / building of inventories and working capital blockages.
