% of total public funds	% of total liabilities	% of total assets
22.37%	18.28%	7.63%

(vi) Institutional set-up for liquidity risk management

The Company constituted an Asset Liability Management committee ("ALCO") in line with guidelines issued by RBI to NBFCs. ALCO consists of members having requisite skill set and expertise of the business & sector of the company. ALCO monitors asset liability mismatches to ensure that there are no excessive imbalances on either side of the balance sheet and also reviews Asset Liability Management strategy. The borrowing strategy of the Company has always been in tandem with assets composition with appropriate consideration for mitigation of interest rate and liquidity risk. The ALCO constantly reviews and monitors the funding mix and ensures the optimum mix of funds based on the cash flow requirements, market conditions and keeping the interest rate view in consideration. The company has put in place robust processes to monitor and manage liquidity and interest rate risks.

ALCO supervises the liquidity management of the Company at regular intervals.
